# RENTAL EQUIPMENT

**D**iamond Tool has the **RENTAL EQUIPMENT** you need from the manufacturers you trust to get your job done right. At Diamond Tool, we pride ourselves in helping find solutions for the demanding needs that arise on your jobsite. Our experienced rental, service and sales staff are here when you need them.

Diamond Tool can configure your hoist to meet your job specifications!

Only a couple of inches are needed for an Enerpac RSM-cylinder to lift this large steel construction.

Our welder rack system is ideal for grouping several inverter power sources in a portable industrial-grade package. One easy connection allows power source to be connected with one primary power drop. The power sources are factory installed in the rack and wired to the main power distribution panel.

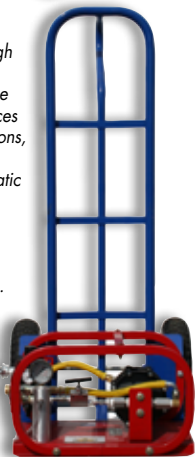

Portable distribution panels and boxes offer rugged and reliable power solutions for all jobsite conditions. These distribution panels and boxes bring a safe and economical solution for electrical hook ups on any worksite.

With 20 ton capacity, Hevi-Haul steel skate rollers can help move large equipment.

Designed for high pressure testing and good for use in confined spaces or remote locations, Pneumatic & Electric Hydrostatic Test Pumps are totally portable, completely adjustable and very easy to use. Custom made by Diamond Tool for your convenience!

Chain hoists, come-a-longs, hydraulic rams, machinery skates, and more are just part of the vast inventory of rental equipment we supply to jobsites everyday. For emergency service, 24 hours a day, 7 days a week call **888-TRY-DIAMOND**. We'll get you what you need to keep your jobs up and running.

Diamond Tool rents pneumatic hacksaws as well as 1" and 1-1/2" impact wrenches along with deep impact sockets.
