**18V Cordless Compact  
7/8" SDS-Plus Rotary Hammer  
Drill Kit**

The Milwaukee V18 7/8" Compact SDS-Plus Rotary Hammer is a powerful, compact design that's lightweight and extremely versatile. The soft grip handle with a two finger reversible trigger positions the user's hand directly behind the chuck for maximum comfort and control while also positioning the battery fuel gauge toward the user.

- ◆ Powered by a V18 Lithium-Ion Battery, the 0856 delivers maximum run time and true corded power in a cordless rotary hammer
- ◆ With three operating modes the user can easily switch the tool from rotary hammer to rotation only (drill) to hammer only (chipping)
- ◆ The tool also features a chisel adjustment mode within the chipping mode
- ◆ Compact, L-shape design, 11.5" grip to chuck
- ◆ Lithium-Ion battery delivers fade free power
- ◆ Excellent cold weather performance
